I. Purpose

To promulgate command policy and procedures for the implementation of international agreements between the United States and Italy concerning the use and operation of military installations/infrastructure located in Vicenza, Italy.

II. References

1. The North Atlantic Treaty, signed at Washington, D.C. on 04 April 1949 and specifically the provisions contemplated in Article 3.
2. Agreement Between the Member States to the North Atlantic Treaty on the Status of Forces, signed at London on 19 June 1951 (NATO SOFA).
3. Bilateral Infrastructure Agreement (BIA) between the United States of America and Italy, signed on 20 October 1954.
4. Memorandum of Understanding Between the Ministry of Defense of the Republic of Italy and the Department of Defense of the United States of America concerning the use of Installations/Infrastructure by U.S. Forces in Italy (1995 U.S.-Italy MOU).
5. Technical Report by Bilateral Commission Tricarico-Preuher on Air Activity of the U.S. Armed Forces of 13 April 1999.

III. Applicability and Scope

This Technical Arrangement applies to the military forces of the United States, members of the force, the civilian component, and their dependents, assigned to or operating at military installations/infrastructure in Vicenza, Italy as detailed in Annexes 1 and 2.

The provisions of this Technical Arrangement are implemented in accordance with references 1 through 5, including Article II of the NATO SOFA which states that it is the duty of a force and its civilian component and the members thereof as well as their dependents to respect the law of the receiving State, and to abstain from any activity inconsistent with the spirit of the NATO SOFA.

IV. Definitions and Abbreviations

In this Technical Arrangement the term:

- CARABINIERI

"Carabinieri" has the status of an Armed Force that acts as the Military Police in the Italian territory. Generally, the personnel of the Service also accomplish duties of prevention and repression of crimes and maintenance of law and order on the entire national territory in coordination with the competent judicial authorities and the Police.

- CARABINIERI SETAF

The "Carabinieri" component, established in support of SETAF, to accomplish duties as Military Police (under the Authority of the Italian Base Commander) and Civilian Police (under the Authority established by the Italian laws and regulations).

- CIVILIAN COMPONENT

"Civilian component" means all the civilian personnel having a relationship to the United States Forces as provided in Article I (1.b.) of the NATO SOFA. In the Italian language version of this document the term "civilian element" is used with the same meaning.

- CIVILIAN PERSONNEL

"Civilian personnel" are those personnel contemplated in Article 6 of the BIA which covers, in addition to the "civilian component" of a force, persons such as those listed below, who are closely affiliated with the United States Armed Forces and under their authority, but not employed directly by them, on the condition that the presence of such persons in Italy is recognized by both governments as necessary in connection with the functioning of the installations:

- Employees of other United States Government Departments;

- Essential personnel of the USO; School; Post Exchanges; Commissaries; youth development and educational support organizations (for example, but not limited to, Boy and Girl Scouts); religious support groups; Soldier, Sailor, Airmen, and Marine mutual aid societies (for example, but not limited to, United Seaman's Service and the Navy and Marine Corps Relief Society); military banking facilities and Credit Unions; and, the Red Cross;

- Technical representatives of firms having special relations with the United States Armed Forces, when such persons come to Italy for other than temporary visits.

- CONSTRUCTION

"Construction" means work required to erect, install or assemble a new facility; or add to, alter, expand, convert, demolish or replace an existing facility.

- EXCLUSIVE USE

"Exclusive use" means the utilization by the armed force of a single Nation, of installations and/or infrastructure defined and included within the perimeter of the installation, for the performance of activities related to the mission and/or tasks assigned to said force by the sending State. The designation of "exclusive use" to installations and/or infrastructure utilized by the U.S. Force does not limit in any way the exercise of Italian national sovereignty, as preserved by Article VII of the NATO SOFA.

- FORCE

"Force" means personnel belonging to the Armed Forces as contemplated in Article I (1.a.) of the NATO SOFA.

- INFRASTRUCTURE

"Infrastructure" means the complex of fixed or permanent structures, both horizontal and vertical, and facilities, within the installation and therein established for the performance of the main and support activities of the Forces.

- INSTALLATION

"Installation" means the complex of land and fixed structures thereon, which are within defined and clearly identified boundaries.

- JOINT USE

"Joint use" means the common utilization of the installation/infrastructure by both Italian and U.S. Forces assigned to the installation/infrastructure, to perform the activities related to NATO missions and/or tasks assigned to said forces by their respective governments.

- LOCAL CIVILIAN LABOR

The term "local civilian labor" means all non-civilian component personnel hired by the U.S. Forces with a contract.

- MAINTENANCE

"Maintenance" means the recurrent, day-to-day, periodic, or scheduled work required to preserve property.

- REPAIR

"Repair" means programmed work required to ensure restoration of the installation's efficiency.

ABBREVIATED TERMS:

- BIA means Bilateral Agreement on Infrastructure
- DOD USA means Department of Defense of the United States of America
- IDGS (SMD) means Italian Defense General Staff
- IPI means internal permanent instructions (local Italian SOPs)
- JMC means Joint Military Commission
- MOD IT means Italian Ministry of Defense
- NATO means Organization of the North Atlantic Treaty
- NATO SOFA means Agreement on the Status of NATO Forces
- PPR means prior permission required
- SMA means Italian Air Force General Staff
- SME means Italian Army General Staff
- SMM means Italian Navy General Staff
- SOP means standard operating procedures
- TA means Technical Arrangement
- U.S. means United States
- USAFE means U.S. Air Force Europe

- USAREUR means U.S. Army Europe
- USEUCOM means U.S. European Command
- USNAVEUR means U.S. Naval Forces Europe
- USO means United Servicemen's Organization

V. Use and Operation

1. The installation at Caserma Carlo Ederle, and its subordinate installations in the area of Vicenza, Italy, as identified in Annexes 1 and 2 to this Technical Arrangement, are peace-time military installations, as agreed, in accordance with the BIA. The installations have been ceded in use to the United States of America to be employed by the latter according to the provisions of Article 2 of said Agreement. In particular circumstances the authorities of the two countries will agree on the utilization of the installations' facilities granted for use to the U.S.A. by civilian activities of the Host Country. These activities, as indicated in Annex 3, will be at no cost to the United States. Any services provided to these civilian activities by the United States will be on a reimbursable basis.

2. The locations covered by this TA are shown in Annex 1 and the attached maps provided by the Italian Authorities and comprise operational areas (command, communications, etc.), logistics/support areas, and housing areas. The Italian Commander, with the assistance of the U.S. Commander, will maintain a map detailing the location of the various facilities on the installations.

3. The principal use of the installations is related to:

- a. Permanently assigned operational units;
- b. Units and related facilities, supporting the cited operational units, used for peace-time routine training activities;
- c. Associated personnel. The precise number of personnel will be provided semiannually to the Italian Commander or whenever requested, as indicated in Annex 4.

4. Installations/infrastructure listed in Annexes 1 and 2 will also be subject to this Technical Arrangement. These Annexes will specify the use, location, personnel and infrastructure of these installations.

VI. Command

1. The installation is placed under Italian command. The functions of such command, which will be exercised by an Italian officer, will vary according to whether the installation is jointly used or used exclusively by the U.S. Armed Forces. The Italian Commander's authority extends throughout the installation at Caserma Carlo Ederle, and its subordinate installations in the area of Vicenza, Italy, as identified in Annexes 1 and 2 and over all the Italian personnel, military and civilian, assigned for whatever reason to the installation, and over the whole land and infrastructure, Italian equipment and materiel in accordance with Italian laws and regulations. See Annex 5 for further delineation of command issues.

2. The rank of the Italian officer is established by the cognizant Italian Authorities based on his responsibilities and tasks, regardless of the rank of the senior U.S. officer assigned to the installation.

3. The U.S. Commander has full military command over U.S. personnel, equipment and operations. He will notify in advance the Italian Commander of all significant U.S. activities, with specific reference to the operational and training activity, to the movements of materiel, weapons, and civilian/military personnel, and to any events/incidents that should occur. Likewise the Italian Commander will keep the U.S. Commander informed of all significant national activities. For further clarification see Annex 5. The Italian Commander will advise the U.S. Commander if he believes U.S. activities are not respecting applicable Italian law and will immediately seek advice from higher Italian Authorities. Differences of opinion between the commanders regarding whether a specific activity should be undertaken, that cannot be resolved locally, will be promptly referred up the respective chains of command for resolution. Beginning a disputed activity is subject to resolution of the controversy.

4. Permanent personnel increases to the operational component and relative support shall be authorized by the Italian National Authorities. Temporary increases of military and civilian personnel (for training, exercises, logistical activities, transit, etc.) will be approved by the Italian Commander. Temporary increases of personnel associated with operations already approved by the Government of Italy will be coordinated with the Italian Commander. See Annex 4 for details concerning the temporary increase of personnel.

5. In order to comply with his responsibilities, the Italian Commander, or the acting Italian Commander, has free access, with

no restrictions, except as provided in the following Section XV, to all areas of the installation. The Italian Commander, or in his absence the acting Italian Commander, will intervene to have the U.S. Commander immediately interrupt U.S. activities which clearly endanger life or public health. Upon notification of the danger, the U.S. Commander will promptly investigate and consult with the Italian Commander concerning the situation. Either commander may refer a matter in dispute, or one not susceptible to local resolution, to higher authority for resolution.

6. The Italian Commander is the formal representative of the installation and serves as the liaison with national authorities, and the contact with local authorities and local external military and civilian entities, including press agencies. The U.S. Commander is not precluded from contacting local authorities on matters of interest only to the United States. The Italian Commander will coordinate, as agreed, all matters of common interest and, to this end, he will be kept constantly informed on all U.S. activities and initiatives as indicated in Annex 5. The U.S. and Italian Commanders fulfill their representational role with equal status. Details are addressed in a separate instruction.

VII. Flags and Honors

The NATO flag together with the U.S. and Italian flags will be displayed over the installation. The respective national flag may be raised over buildings used exclusively by the U.S. or by Italy. Details are addressed in a JMC Instruction (JMCI-3).

VIII. Personnel

1. The NATO SOFA and the implementing agreements listed in the references regulate the status of U.S. Forces in Italy, as well as the status of members of these forces, of members of the civilian component, and of their dependents, whose presence in Italy is in furtherance of the objectives of this Technical Arrangement and the Agreements listed in the references.

2. In accordance with Article IX, paragraph 4 of the NATO SOFA, the conditions of employment and work for local civilian labor, in particular wages, supplementary payments, and conditions for the protection of workers, shall be consistent with the laws of Italy.

3. In accordance with the NATO SOFA and bilateral agreements, the U.S. command shall withhold social security benefits for local civilian labor, through appropriate social security institutions, to include deduction from wages for income tax payment to Italy, in accordance with current Italian law.

IX. Infrastructure

1. a. The installation includes:

- (1) Jointly-funded infrastructure;
- (2) NATO-funded infrastructure;
- (3) US-funded infrastructure;
- (4) Italian-funded infrastructure.

b. The buildings and infrastructure are classified as:

- (1) NATO or national, joint use;
- (2) NATO for exclusive use, U.S. or Italian;
- (3) National for exclusive use, U.S. or Italian.

c. The areas and all the infrastructure therein, marked in different colors as indicated by the legend, are shown in detail in the map attached to Annex 1. Buildings and infrastructure, and their use (Italian, allied or joint) and purpose are listed in Annex 2. The cited documentation (plan and listing) will be kept updated by the Italian Commander with the assistance of the U.S. Commander.

2. The operation and maintenance costs for structures composing the installation are charged to the U.S. or Italian Armed Forces according to their ownership and use. In case of "joint use", charges are shared proportionally to the actual use based on criteria specified in Annex 6.

3. The Italian Armed Forces are responsible for repair and maintenance of "joint use" buildings and infrastructure. The Italian Commander shall plan, in coordination with the U.S. Commander, for the maintenance of all jointly used buildings and infrastructure. The user Nation is responsible for repair and maintenance of "exclusive use" buildings and infrastructure. For NATO infrastructure, current NATO directives apply.

4. All construction projects, including new infrastructure and improvements to infrastructure, which constitute construction as defined in Section IV, are subject to prior approval of the MOD IT. All changes of use of buildings and infrastructure also will be authorized by the MOD IT. In accordance with the BIA and subsequent agreed procedures, construction projects to be accomplished exclusively with U.S. funds will be executed by the Italy/U.S. Construction Mixed Commission.

5. The Italian Commander, after taking into account the zoning regulations and obtaining the necessary inputs from the U.S. Commander, shall develop a base Development Multi-year Plan,

which shall be approved by the national Authorities. Required changes can be periodically submitted for the approval of the national Authorities. Copies of both the proposed and approved Multi-year Plans will be provided to the U.S. Commander.

X. Utility Services

1. U.S. Armed Forces will be provided with the following services to satisfy operational, logistical support, and housing requirements:

a. A total of a certain number of cubic meters per day of drinking water, as detailed in Annex 7, in accordance with current Italian regulations and in proportion to the highest number of personnel expected to be assigned to the installation, and of a certain number of cubic meters of water for services, when available. Variation to the quantity of water provided, shall be agreed when changes in availability or requirements, also temporary, occur. When availability is scarce, priority will be given to satisfy operational and logistical support requirements;

b. Electric power (line of a certain number of KV) to employ power to a certain maximum number of KW, available at certain parameters as detailed in Annex 7, to the main power substations of the installations;

c. Charges for utilities will be based on the actual use. Where the United States Armed Forces make use of utilities which come from the outside (such as electric energy, gas, water, telecommunications, sewerage), the Italian Government, insofar as it is competent to do so and in accordance with Article 12 of the BIA, will assure access to said services at terms no less favorable than those in force for the Italian Armed Forces.

2. The Italian Ministry of Defense will provide for disposal on the outside perimeter of the installation of all waste products. The U.S. Commander is responsible to ensure that disposal in U.S. processing plants is done consistent with applicable Italian standards on waste products.

3. The U.S. Commander will provide for disposal of toxic/harmful waste, generated by the U.S. Forces, consistent with current Italian standards and applicable international agreements.

4. In accordance with the provisions of Section VI, paragraph 5, the Italian Commander reserves the right to notify the U.S. Commander of perceived violations of applicable standards for disposal of waste. Upon notification of a perceived violation, the U.S. Commander will promptly investigate and inform the

Italian Commander of steps taken to remedy the situation or of the propriety of the method applied. Either commander may refer a matter to higher authority for resolution.

XI. Supply of Goods and Services

1. Procurement of goods and services by the U.S. Forces shall be governed by Article 31 of BIA and the NATO SOFA. The U.S. and Italian commanders will cooperate to avoid that the provision of goods and services create disturbances on the local market, by examining the possibility that, when U.S. purchases are made by direct contracts, procedures similar to those used by the Italian Armed Forces are adopted, including anti-mafia screening procedures.

2. The acquisition by both Parties of any supplies, support, or services, as outlined in this Section and Sections IX and X, must be done under authorized national contracting procedures or an implementing arrangement under the NATO Mutual Support Act.

XII. Financial Matters

1. The financial obligations of the Parties under this Technical Arrangement shall be subject to the authorization and appropriation of funds in accordance with respective national laws.

2. Operational expenses of the installation are as follows:

- a. Common, referring to joint use by both nations;
- b. Exclusive, referring to exclusive use by each nation.

3. Common expenses are subdivided into:

- a. Personnel costs;
- b. Operation and maintenance costs;
- c. Investment costs.

4. Each nation will be responsible for its exclusive expenditures. Common expenses will be shared according to use. If this is not possible, an equal allocation in proportion to the assigned Force or other agreed criteria, will apply. In accord with commonly accepted principles, each Party will be responsible for the costs of its own personnel.

5. The definition of common expenses, methods and procedures for accounting, refunds and fiscal year planning for common expenses will be agreed upon and included in Annex 6, according to the following general principles:

a. The Italian Commander will prepare the estimated and final budget for common expenditures;

b. U.S. representatives will participate in developing the budget, to include proportionate use percentage and allocation of expenses;

c. The Italian Commander, in coordination with the U.S. Commander, will prepare well in advance - no later than the month of March - the estimated budget for the next fiscal year, both in the Italian and English language. The estimated budget for the following fiscal year will be reviewed and approved by both Parties in accordance with the provisions of this Technical Arrangement;

d. The approved estimated budget will be used by the Parties to plan financial/administrative activities. If expenditures vary significantly from the approved estimated budget, a new estimated budget may be submitted for approval;

e. Payment of funds by the U.S. will be in Italian currency, in quarterly payments in advance of the applicable quarter, starting on January 1 of each year;

f. Common expenses will be managed by the Italian Commander, as provided by current Italian laws and regulations;

g. A quarterly summary accounting of common expenses will be provided by the Italian Commander to the U.S. Commander no later than 30 days following the conclusion of each quarter in accordance with the provisions of Annex 6; this quarterly accounting will provide the basis for future U.S. payments, and/or adjustments to payments previously made, in coordination with the Italian Commander;

h. The format of the estimated and final budgets will be agreed between the Parties;

i. Contracts made for common services will be made available to the U.S. Commander upon request, together with technical specifications and/or documents, with the exception of patent information. With regard to modernization/improvement projects, the current NATO or bilateral procedures will apply, according to the eligibility of the project for NATO or U.S. funding. In the latter case, after authorization from Italy, the U.S. will execute the project. Exclusive expenses will be managed by each command.

XIII. Customs and Taxation Matters

1. United States exemption from taxes and customs duties shall be regulated as provided in the NATO SOFA and the BIA, as applicable, relevant legislation, and other tax relief agreements on tax exemption between the governments.

2. When the installation is the point of entry into the national territory, transient or residing military/civilian personnel, not covered by the NATO SOFA, will fall under the normal customs regulations applying to foreigners. If the transit/arrival installation is the first stop in the national territory, the U.S. Commander will provide the list of these personnel to the local customs Authorities if available, or to the Italian Commander, in accordance with procedures specified in Annex 8.

XIV. Social and Administrative Services

1. In order to satisfy the requirements of quality of life (in accordance with the NATO SOFA and with prior notification in accordance with Article 13 of the BIA), the U.S. Forces may establish, use and maintain structures on the installation, necessary to support the force, civilian component and dependents. The structures will house facilities customary for these purposes, including, among others:

a. Post offices, military finance services, bank facilities, BOQs/BEQs, messes, liquor retail sales (class VI stores), commissaries, base exchange stores, service stations and automotive repair shops, social centers, libraries, theaters and recreational areas;

b. Schools, to include child care centers and other educational facilities and programs for children;

c. Hospitals, dental clinics and other medical care centers.

2. The above agencies are exempted from license fees, excise duties, sales taxes, customs duties and other import taxes on their property, activity, goods and services sold or provided. Appropriate controls will be established to prevent abuses such as selling or giving away exempted goods to people not eligible to purchase in said stores. The U.S. Commander will be responsible for the application of such control measures and will apprise the Italian Commander of their contents.

XV. Security and Police Responsibilities

1. The Italian Commander is responsible for security of the installation at Caserma Carlo Ederle, and its subordinate

installations in the area of Vicenza, Italy, as identified in Annexes 1 and 2 and discharges military police tasks towards the Italian military personnel assigned to SETAF in accordance with Italian laws and regulations. In coordination with the U.S. Commander, who bears independent responsibility for the safety and security of his own personnel and equipment, the Italian Commander issues appropriate directives for the security of the entire installation and establishes access procedures and will issue passes for entry into the installation if such procedures are deemed appropriate by the two commanders. The U.S. Commander may be requested to support this operation with U.S. personnel and vehicles. Security procedures and plans are discussed in Annex 9.

2. To accomplish his tasks and as guarantor for Italian sovereignty, the Italian Commander, or the acting Italian Commander, has access to all areas and facilities. Procedures for access by Italian personnel to limited and well-defined U.S. classified areas, as agreed by the Parties, are specified in Annex 10. The same right is granted, when authorized by the Italian Commander, or the acting Italian Commander, to the Italian military personnel tasked to accomplish military police duties (Carabinieri SETAF) inside the installation.

3. Responsibility for external security of the installation is assigned exclusively to the Italian Authorities. Said external security is assured by the Authorities responsible for public order and security, in coordination with the competent territorial Military Command and the Italian Commander.

4. In accordance with Article VII, paragraphs 10 a. and b. of the NATO SOFA regarding the status of NATO Forces, the U.S. Commander exercises his police rights on the land areas and infrastructure therein, used by the U.S. Forces pursuant to agreement with the Italian Authorities. To discharge this function he may take, in coordination with the Italian Commander responsible for issuing directives in accordance with paragraph 1 above, all measures necessary to assure and maintain order and security within the area and infrastructure assigned to and among the U.S. Forces, consistent with applicable Italian law. Police authority granted to the U.S. Commander may be coordinated with the Italian Commander to ensure that it is exercised in accordance with the general principles governing police activities in Italian territory, without prejudice to national sovereignty.

5. Military police activities by the U.S. Forces outside the installation are subordinated to agreements with and in

liaison with the Italian national authorities, as long as such activities are necessary to maintain order and discipline among U.S. personnel.

XVI. Air/Surface Transportation and Related Activities

1. Pursuant to NATO commitments, the U.S. Forces have the authority to use military aircraft and civilian aircraft under contract with the U.S. Forces to load and unload personnel, equipment and supplies related to the operational activities indicated in this Technical Arrangement. The U.S. Commander will notify in advance the Italian Commander of any aircraft deployment, including temporary deployments, in accordance with the provisions of Section VI and Annex 5. Such notification may be accomplished by providing the Italian Commander with a copy of the relevant request for PPR.

2. Properly registered vehicles belonging to the U.S. Forces can freely circulate on Italian territory in respect of Italian traffic regulations. The Italian Commander will be advised in advance of convoy movements so that actions necessary to coordinate the movement with the competent authorities can be taken.

3. U.S. military authorities are authorized to register private vehicles owned by members of the U.S. Forces and/or civilian component and their dependents, and to issue license plates. Before a vehicle is licensed, U.S. authorities will ascertain that it has liability insurance, as provided by Italian law.

4. U.S. authorities are authorized to issue private vehicle driver licenses (with Italian translation) to members of the U.S. Forces and/or civilian component and their dependents, after having ascertained their driving capability and their knowledge of the Italian traffic rules.

5. Movements and transfers of hazardous materiel (fuel, explosives, weapons) and cargo/ways of transportation of any kind, requiring caution, as external cargo delivery, involving air space, territorial and/or inter-coastal waters, Italian railways and/or roadways, shall be coordinated with the Italian Commander in order to verify its conformity to Italian legislation.

XVII. Training/Operational Activities

1. Planning and execution of all training and operational activities will be in accordance with the objectives and purposes identified in Section V and with respect of civil and military

regulations of the host nation, which are effective in the specific area. Details are provided in Annex 11.

2. The appropriate national Authorities will be notified beforehand of training/operational activities of units assigned to the installation, through the Italian Commander or his representative, for the required coordination and approval according to existing procedures. In addition, the U.S. Commander shall provide the Italian Commander the annual schedule of exercises involving units assigned or deployed on the base. Detailed procedures for said coordination and approval are indicated in Annex 11, Procedures for Training Coordination.

3. Joint and/or combined training/operational activities may be conducted, after coordination with the responsible national military Authority. Any use of airports, ports, or bases, as technical stops, while conducting said activity must be coordinated beforehand, in accordance with current procedures.

4. Air traffic control is the direct responsibility of Italy in compliance with the applicable laws and according to the agreements providing for mutual cooperation in this area.

XVIII. Removable and Real Property and Residual Value

1. The Government of the United States will retain ownership of all removable property built by/for the Government of the United States at its own expense, and all equipment, materiel and supplies entered into, or acquired in, Italy by/for the Government of the United States for construction, development, operation and maintenance of installations intended for use by the United States. These items will not be disposed of in Italy except in accord with conditions, limitations, and exclusions which will be agreed upon with the Italian Government. Additionally, the Government of the United States undertakes not to proceed to remove or subsequently take out from Italy any major items of equipment which may affect the functioning of the installation without consultation with the Italian Authorities.

2. In the event the United States determines the use of all or any part of the infrastructure on this installation is no longer required, it shall relinquish such infrastructure to the Italian Government in accordance with the procedures contemplated by Annex B to the Memorandum of Understanding Between the Ministry of Defense of the Republic of Italy and the Department of Defense of the United States of America Concerning Use of Installations/Infrastructure by U.S. Forces in Italy.

XIX. Local Commissions

The Italian Commander and the U.S. Commander may establish a local Joint Military Commission charged with examining the local aspects of executing the Technical Arrangement. The Commission will receive from local authorities problems, complaints or requests for assistance and will endeavor jointly to resolve any problems locally. Issues that are beyond the competence of the local Commanders will be referred to higher authority. The composition and functions of the local Joint Military Commission are detailed in Annex 12.

XX. Procedures for Mutual Cooperation

Italian and U.S. authorities will assure effective cooperation in order to preserve good relations and avoid, in so far as possible, local frictions and misunderstandings which might arise in the course of the implementation of these procedures concerning the use of installations/infrastructure located in Vicenza, Italy.

XXI. Annexes

This Technical Arrangement includes 12 annexes, identified as Annex 1 through Annex 12, and will be considered incomplete unless these annexes are included, and will not be implemented in any part unless and until all annexes have been concluded and attached to the Technical Arrangement. Lists, figures and parameters contained in Annexes 1, 2, 7 and 10 may be updated, from time to time, by mutual agreement of the Italian and U.S. Commanders. Copies of the updated Annexes shall be promptly provided to the Joint Military Commission established in accordance with Article II of the 1995 U.S.-Italy MOU. Changes to other Annexes may be proposed by the JMC and upon approval by respective national authorities, will be signed by the JMC Chairmen.

XXII. Effective Date, Implementation, and Revision

1. This Technical Arrangement will become effective on the date of last signature and will continue in effect until terminated. It may be terminated immediately if both parties consent in writing to immediate termination or by either party upon giving 180 days written notice to the other party that termination is desired.

2. All previous bilateral international agreements concerning the use and operation of military installations/infrastructure located in Vicenza, Italy are repealed starting from the day this Technical Arrangement comes into force. The Italian and U.S. commanders may only implement this Technical Arrangement through SOPs and administrative agreements developed jointly by the

parties and approved by the local Joint Military Commission (JMC-L), as long as these procedures are consistent with this Technical Arrangement.

3. Changes to this Technical Arrangement may be made with the agreement of both parties; either party may request, in writing, modification of any provision at any time. Changes must be in writing, will include signatures of both parties, and will be appended to the original copies of this Technical Arrangement.

4. Disagreements as to the interpretation or implementation of this Technical Arrangement shall be settled through consultation between the parties at the lowest echelon possible using, if necessary, the local Joint Military Commission identified in Section XIX above and then the Joint Military Commission established in accordance with Article II of the 1995 U.S.-Italy MOU. In no event will disagreements be subject to arbitration or litigation.

XXIII. Authentication

This Technical Arrangement is executed in both the English and Italian languages, each text being equally authentic.

IN WITNESS WHEREOF, the undersigned being duly authorized by their respective Governments, have signed this Technical Agreement.

Done at Pisa, this 16th day of April, 2008, in duplicate.

PASQUALE PREZIOSA
MAJOR GENERAL, ITALIAN ARMY
CHIEF OF III REPARTO,
ITALIAN DEFENSE GENERAL STAFF

ANNEX 1 - INSTALLATIONS COVERED BY THIS TECHNICAL ARRANGEMENT

1. The Caserma Carlo Ederle installation is the headquarters of the United States Army Southern European Task Force (SETAF). SETAF is a rapidly deployable subordinate command of U.S. Army Europe and 7th Army (USAREUR & 7th Army). SETAF has subordinate installations located in the Vicenza area. U.S. Army facilities headquartered at the Caserma Carlo Ederle installation also includes the following subordinate installations:

- a. Vicenza - Villaggio della Pace Housing and Family Support Area (Attachment 1 to Annex 1);
- b. Arcugnano (VI) - Tormeno - Ammunition Supply Point #7, (Attachment 2 to Annex 1);
- c. Longare (VI) - Current Operations and Intelligence Center (Attachment 3 to Annex 1);
- d. Zovencedo (VI) - San Gottardo Communication Site (Attachment 4 to Annex 1);
- e. Vicenza - Dal Molin U.S. Complex (Attachment 5 to Annex 1).

2. USE: The principal use of the Caserma Carlo Ederle installation is related to:

- Permanently assigned operational units;
- Units and relative command and control (C2), logistic and administrative facilities, supporting the cited operational units, used for peace-time training activities;
- Associated personnel. The precise number of associated personnel will be provided semiannually to the Italian Commander or whenever requested, as indicated in Annex 4.

3. LOCATION: The Caserma Carlo Ederle installation is located in the province of Vicenza, municipality of Vicenza, with an area of 613,260 square meters, with a perimeter of 4.082Km and includes 8,600 square meters of leased facilities inside of 322 meters of perimeter fencing. The location is shown in the area map attached to Annex 2.

4. INFRASTRUCTURE: The Caserma Carlo Ederle installation includes:

- U.S.-funded infrastructure;
- Italian-funded infrastructure;

The buildings and infrastructure are classified as:

Annex 1

- National for exclusive use, U.S. or Italian units that directly support the SETAF mission;

The areas and all the infrastructure therein, marked as indicated by the legend, are shown in detail in the attached map.

5. As identified in the map for Caserma Ederle attached in Annex 2, facilities leased by U.S. Forces and utilized for administrative, logistical and functional purposes are included in the perimeter fence for security requirements.

**ATTACHMENT 1 TO ANNEX 1 - VICENZA - VILLAGGIO DELLA PACE HOUSING
AND FAMILY SUPPORT AREA**

1. USE: The principal use of the installation is related to:

- A housing and family support area for SETAF personnel, and consolidated logistical and administrative support of the U.S. Army Southern European Task Force (SETAF) and supported personnel.

2. LOCATION: The installation is located in the province of Vicenza, municipality of Vicenza, with an area of 326,710 square meters, with a perimeter of 2.627 Km. The location is shown in the attached area map.

3. INFRASTRUCTURE: The installation includes :

- U.S.-funded infrastructure;

The buildings and infrastructure are classified as:

- National for exclusive use, U.S.

The areas and all the infrastructure therein, marked as indicated by the legend, are shown in detail in the map attached to Annex 2.

Attachment 2 to Annex 1

**ATTACHMENT 2 TO ANNEX 1 - ARCUGNANO (VI) - TORMENO - AMMUNITION
SUPPLY POINT #7, [FORMERLY KNOWN AS "BASIC LOAD STORAGE AREA
(BLSA)"]**

1. USE: The principal use of the installation is related to:

- A storage and maintenance area for conventional ammunition, and consolidated operational, administrative, and logistical support of the U.S. Army Southern European Task Force (SETAF) and assigned/attached operational units;

- Personnel and relative facilities, supporting the cited operational units, used for peace-time training activities;

2. LOCATION: The installation is located in the province of Vicenza, municipality of Arcugnano, with an area of 139,528 square meters, with a perimeter of 1.943 Km. The location is shown in the attached logistics/support area map.

3. INFRASTRUCTURE: The installation includes:

- U.S.-funded infrastructure;

The buildings and infrastructure are classified as:

- National for exclusive use, U.S.

The areas and all the infrastructure therein, marked as indicated by the legend, are shown in detail in the map attached to Annex 2.

ATTACHMENT 3 TO ANNEX 1 - LONGARE (VI) - CURRENT OPERATIONS AND INTELLIGENCE CENTER (COIC).

1. USE: The principal use of the installation is related to:

- Operational, command and control (C2), administrative, and logistical support of the U.S. Army Southern European Task Force (SETAF) and assigned/attached operational units;

- Units and relative command and control (C2), logistic and administrative facilities, supporting the cited operational units, used for peace-time training activities;

2. LOCATION: The installation is located in the province of Vicenza, municipality of Longare, with an area of 259,439 square meters, with a perimeter of 2.737 Km. The location is shown in the attached logistics/ support area map.

3. INFRASTRUCTURE: The installation presently includes:

- U.S.-funded infrastructure;
- NATO-funded infrastructure.

The buildings and infrastructure are classified as:

- National for exclusive use, U.S.

The areas and all the infrastructure therein, marked as indicated by the legend, are shown in detail in the map attached to Annex 2.

**ATTACHMENT 4 TO ANNEX 1 - ZOVENCEDO (VI) - SAN GOTTARDO
COMMUNICATION SITE**

1. USE: The principal use of the installation is related to:

- Operational, administrative, and logistical support of the U.S. Army Southern European Task Force (SETAF) and assigned/attached operational units;

2. LOCATION: The installation is located in the province of Vicenza, municipality of Arcugnano, with an area of 4,857 square meters, with a perimeter of 280 meters. The location is shown in the attached logistics/support area map.

3. INFRASTRUCTURE: The installation includes:

- U.S.-funded infrastructure.

The buildings and infrastructure are classified as:

- National for exclusive use, U.S.

The areas and all the infrastructure therein, marked as indicated by the legend, are shown in detail in the map attached to Annex 2.

ATTACHMENT 5 TO ANNEX 1 - VICENZA - DAL MOLIN U.S. COMPLEX.

1. USE: The principal use of the U.S. Complex located on the Dal Molin installation is related to:

- Consolidated operational, administrative, and logistical support of the U.S. Army Southern European Task Force (SETAF) and assigned/attached operational units;

- Units and relative facilities, supporting the cited operational units, used for peace-time training activities;

2. LOCATION: The installation is located in the province of Vicenza, municipality of Vicenza, with an area of 2,384 square meters. The location is shown in the attached logistics/ support area map.

3. INFRASTRUCTURE: The U.S. Complex located on the Dal Molin installation presently includes:

- U.S.-funded infrastructure;
- Italian-funded infrastructure.

The buildings and infrastructure located on the installation are classified as:

- National for exclusive use, U.S.

The areas and all the infrastructure therein, marked as indicated by the legend, are shown in detail in the map attached to Annex 2.

ANNEX 2 - INFRASTRUCTURE USAGE MAP AND LIST OF BUILDINGS WITHIN EACH INSTALLATION.

1. This annex is comprised of a topographic map in scale 1:50000 (TBD), indicating the location of the installations covered under this TA, in accordance with the previous Annex. In addition, the annex contains for each subinstallation included in the present TA, the maps and the list of infrastructure existing inside the installation.

2. The CASERMA CARLO EDERLE installation, including all the buildings and infrastructure therein, and their use, marked in different colors as indicated by the legend, are shown in detail in the attached map and list of buildings within the installation. Additionally, establishments or other premises leased by the United States Forces are indicated.

ANNEX 3 - UTILIZATION OF THE INSTALLATIONS' FACILITIES GRANTED FOR USE TO THE UNITED STATES BY CIVILIAN ACTIVITIES OF THE HOST COUNTRY

Use of the installations/infrastructure listed in this agreement is granted to the U.S. Forces only and may not be extended to third parties or other armed forces absent previous agreement between the parties.

1. Requests by civilian activities of the host nation for the recreational, cultural, or educational use of installations/infrastructure granted for use by the U.S. Forces, shall be initially addressed to the Italian Commander.

2. The Italian Commander will forward the request to the U.S. Commander, along with an endorsement expressing the concurrence or nonconcurrence by the Italian Commander to the request.

3. The U.S. Commander will approve or deny the request, consistent with mission, operational, and security requirements. The U.S. Commander will then transmit his decision to the Italian Commander, who will then have the responsibility to inform the requesting civilian agency or activity of the decision.

4. In accordance with Section V of this Technical Arrangement, civilian activities of the host nation that are conducted on installations/infrastructure granted for use by the U.S. Forces will be at no cost to the United States. Any services provided by the U.S. forces to these civilian activities will be on a reimbursable basis.

5. In appropriate circumstances, as determined by the U.S. Commander, sponsors of host nation civilian activities conducted on installations/infrastructure granted for use by the U.S. Forces will be required to present proof of liability insurance as a condition for obtaining approval. The liability insurance will hold the U.S. harmless for any and all actions conducted by the civilian activity.

6. In certain circumstances, normally cases of public emergency, the Italian government may desire to use installations/infrastructure granted for use by the U.S. Forces. On a case-by-case basis and per Sections V and XII of this

Annex 3

Agreement, the Italian and U.S. Commanders will negotiate the circumstances of such use. The Italian Commander will endeavor to avoid any prejudice to the U.S. Forces' operations in negotiating such agreement.

----- **END OF ANNEX** -----

ANNEX 4 - PERSONNEL REPORTING

1. Introduction.

a. This annex fulfills the requirements of Section V, paragraph 3, of this agreement, for U.S. reporting of personnel.

b. "Associated personnel" means the total of the permanently authorized "force" and "civilian component" (as defined in Section IV of this agreement) encompassed by this TA.

(1) Italian National Authorities will authorize the maximum number of the associated personnel.

(2) Temporary increases.

(a) Temporary increases to the associated personnel for training, exercises, logistics activities, transit, etc., in numbers not exceeding 5% of the associated personnel, and on the installation for more than 2 but not exceeding 60 days, will be approved by the Italian Commander as delegated by the IDGS.

(b) Temporary increases of the associated personnel for training, exercises, logistics activities, transit, etc., for periods exceeding 60 days will be approved by the IDGS.

(c) Temporary increases of the associated personnel supporting operations already approved by the Government of Italy will be coordinated with the Italian Commander.

2. Reporting. Semi-annually, or when requested, the U.S. Commander will provide the Italian Commander with:

a. A list of the U.S. Commands at Caserma Ederle and its subordinate subinstallations identified in Annexes 1 and 2 to this Technical Arrangement;

Annex 4

b. A table of organization of the U.S. Commands at Caserma Ederle and its subordinate subinstallations identified in Annexes 1 and 2 to this Technical Arrangement;

c. A list of temporarily assigned units serving with the U.S. Commands at Caserma Ederle and its subordinate subinstallations identified in Annexes 1 and 2 to this Technical Arrangement;

d. The associated personnel strength; and

e. The approximate number of civilian personnel (as defined in Section IV of this agreement).
All reports submitted under this Annex shall be IAW with JMC Instruction, (to be determined).

----- **END OF ANNEX** -----

ANNEX 5 - COMMAND RELATIONSHIPS

1. Italian Commander.

a. The Italian Commander's authority extends throughout the installation at Caserma Carlo Ederle, and its subordinate installations in the area of Vicenza, Italy, as identified in Annexes 1 and 2 and over all the Italian personnel, military and civilian, assigned for whatever reason to the installation, and over the whole land and infrastructure, Italian equipment and materiel in accordance with Italian laws and regulations. This includes Italian equipment and materiel located on any installations/ infrastructure ceded in exclusive use to the U.S. forces.

b. To accomplish his tasks and as guarantor for Italian sovereignty, the Italian Commander has access to all areas and facilities as referred to in Section XV of this agreement and agreed in Annex 10.

c. The Italian Commander will:

(1) Coordinate with the U.S. Commander on all matters of common interest. Advise the U.S. Commander on aspects of Italian law, rules and regulations that may impact U.S. operations. Advise the U.S. Commander if he believes U.S. activities are not respecting applicable Italian law, rules and regulations and will immediately seek advice from higher Italian Authorities.

(2) Serve as the formal representative of the installation and as the liaison between the U.S. military authorities and the local Italian civil and military authorities, including press agencies. In the event that an Italian civilian or military authority requires a license, permit, or official certification of an installation activity, the processing of such documents shall be facilitated by the Italian Commander.

(3) Be responsible for coordinating external perimeter security and for initiating liaison with national and local officials for needed security initiatives.

(4) Receive inquiries from the local officials concerning the activities of U.S. forces and coordinate such with the U.S. Commander. In accordance with Section XIX of this Technical Arrangement forward the inquiries to the local JMC for resolution.

Annex 5

(5) Monitor and approve any temporary increase of the associated personnel, in accordance with paragraph 4, Section IV and Annex 4 of this Technical Arrangement.

(6) Monitor installation activities and promptly report any situation which requires an immediate review by appropriate national authorities.

(7) Intervene to have the U.S. Commander immediately interrupt U.S. activities which clearly endanger life or public health and which do not respect Italian law.

2. U.S. Commander.

a. Commanding Officer, U.S. Army Garrison Vicenza (USAG-V) is the U.S. Commander over Caserma Ederle installations/infrastructure covered by this Technical Arrangement. The U.S. Commander has full military command over U.S. personnel, equipment and operations, and bears independent responsibility for the safety and security of his own personnel and equipment. The U.S. Commander's activities are undertaken in accordance with Article II of the NATO SOFA which states that it is the duty of a force and its civilian component and the members thereof as well as their dependents to respect the law of the receiving State, and to abstain from any activity inconsistent with the spirit of the NATO SOFA.

b. The U.S. Commander will:

(1) Notify in advance the Italian Commander of significant U.S. activities, with specific reference to the operational and training activity, to the movements of materiel, weapons, and civil/military personnel, and to any events/incidents that should occur or any other relevant issue upon Italian request. The term significant is intended to exclude all routine activities.

(2) Provide notification of any aircraft deployment, including temporary deployment, and provide the Italian Commander with a copy of the relevant PPR.

(3) Provide the Italian Commander the annual schedule of exercises involving units assigned or deployed on the base.

(4) Provide the Italian Commander the personnel information semiannually, or whenever requested, as indicated in Annex 4.

(5) Promptly investigate and consult with the Italian Commander concerning any U.S. activities which clearly endanger

Annex 5

life or public health, and which do not respect Italian law, when notified by the Italian Commander of the situation.

(6) Obtain the approval of/or notify the Italian Commander for any temporary increase of the associated personnel, in accordance with paragraph 4, Section VI and Annex 4 of this Technical Arrangement.

(7) In accordance with Article VII, paragraphs 10 a. and b. of the NATO SOFA regarding the status of NATO Forces, the U.S. Commander exercises his police rights on the land areas and infrastructure therein, used by the U.S. Forces pursuant to agreement with the Italian Authorities.

(8) Comply with all applicable agreements regarding the collection of intelligence products, electronic or otherwise.

3. Joint responsibilities of the Italian and U.S. Commanders.

a. The Italian and U.S. Commanders are responsible for the implementation of this Technical Arrangement.

b. The Italian and U.S. Commanders fulfill their representational roles with equal status. The Italian and U.S. Commanders will assure effective cooperation in order to preserve good relations and avoid, in so far as possible, local frictions and misunderstandings which might arise in the course of the implementation of this Technical Arrangement.

c. The Italian and U.S. Commanders will maintain a continuous and close exchange of information, operations, and planned special events. In particular, all operational and training activities; movement of material, weapons, and civilian/military personnel; and any events/incidents that impact upon the relationship will be subject to this requirement.

d. Differences of opinion between the commanders regarding whether a specific activity should be undertaken, that cannot be resolved within the local JMC, will be referred up the respective chains of command for resolution. Either commander may refer a matter in dispute, or one not susceptible to local resolution, to higher authority for resolution. Beginning a disputed activity is subject to resolution of the controversy.

e. The Italian and U.S. Commanders through the local JMC are responsible for development of a base master plan (the multi-year plan) and initiation of Construction Mixed Commission annual submissions.

ANNEX 6 - FINANCIAL ANNEX

1. In accordance with Sections IX and XII, above, the following procedures apply for the accounting, refund, and fiscal year planning of expenses for the operation and maintenance and capital investment of infrastructure under this Technical Arrangement. For purposes of this Technical Arrangement the fiscal year shall be from 1 October until 30 September of the following year.

2. Recognizing the indispensable and unique role of Italian military personnel who are assigned to or fully integrated with SETAF exclusively in support of the SETAF mission, SETAF has historically determined that it is in SETAF's interest to provide certain supplemental logistic support to its assigned host nation forces. SETAF will continue to provide elements of supplemental logistic support to its assigned Italian military personnel, subject to authorization and appropriation of funds and in accordance with respective national laws, when it is determined that providing such support is in U.S. interest. Accordingly, there are no common expenses to be shared between the U.S. and Italy.

3. The procedures of this annex do not apply to respective national personnel costs. In accord with commonly accepted principles, personnel costs and associated exclusive expenditures will be the sole responsibility of that nation and managed by each nation in accordance with their respective national procedures. "Personnel costs," as used in this annex, means any element of the basic costs of labor, overtime, night differential or holiday pay, or any other special pay or allowances.

4. Procedures specified in this Annex will be reviewed at least annually. Changes to this Annex may be recommended by the Italian and U.S. Commander to the JMC consistent with Section XXI of this Technical Arrangement.

----- **END OF ANNEX** -----

ANNEX 7 - UTILITY AND FIREFIGHTING SERVICES

1. U.S. Armed Forces will be provided with the following services to satisfy operational, logistical support, and housing requirements for the Caserma Carlo Ederle installation and its subordinate installations in the area of Vicenza, Italy as identified in Annexes 1 and 2 to this Technical Arrangement:

- A total of 43,000 cubic meters per year of drinking water, in accordance with current Italian regulations and in proportion to the highest number of personnel expected to be assigned to the installations, variation to the quantity of water provided, shall be agreed when changes in availability or requirements, also temporary, occur. In addition, the U.S. Armed Forces operates two water wells at Caserma Carlo Ederle and one well at Villaggio della Pace and produces 530,000 cubic meters per year. When availability is scarce, priority will be given to satisfy operational and logistical support requirements;

- Electric power lines of 70KV to employ a maximum power of 8505 Kw/hour available at 70KV to the main power stations of the installations with an annual consumption of 34,575,000 Kwh/year.

- Natural gas at a quantity of 845,000 cubic meters per year.

- LPG at a quantity of 90,000 cubic meters per year.

- Heating fuel at a quantity of 745,000 liters per year.

2. Charges for utilities will be based on the actual use. Where the United States Armed Forces make use of utilities which come from the outside (such as electric energy, gas, water, telecommunications, sewerage), the Italian Government, insofar as it is competent to do so and in accordance with Article 12 of the BIA, will assure access to said services at terms no less favorable than those for the Italian Armed Forces.

3. Detailed procedures for the integration and cooperation of Caserma Carlo Ederle firefighting personnel with Vicenza City, Province, and Veneto Regional firefighting and Emergency Response forces is the subject of a Voluntary Mutual Support Memorandum of Agreement. Applicable Standard Operating Procedures (SOP) may be developed in support of this arrangement.

Note: In accordance with Section XXI of the Technical Arrangement, the lists contained in this Annex may be updated, from time to time, by mutual agreement of the Italian and U.S.

Annex 7

Commanders. Copies of such updated lists shall be promptly provided to the Joint Military Commission established in accordance with Article II of the 1995 U.S.-Italy MOU.

----- **END OF ANNEX** -----

ANNEX 8 - PROCEDURES FOR CUSTOMS AND TAXATION

1. When the installation is the point of entry into the Italian national territory for transient or residing military/civilian personnel, not covered by the NATO SOFA, a passenger manifest will be provided to the Italian Commander within 24 hours of arrival. The passenger manifest will indicate:

- Name, rank/grade, status, and military identification number or passport number, as appropriate.

- Any other pertinent information as agreed between the Italian and U.S. Commanders.

2. The U.S. Commander will maintain this list for 30 days following the flight's arrival to allow for inspection by the Italian Commander or Italian customs officials. In any event, the Italian Commander may request the assistance of local customs authorities, as appropriate.

3. Procedures for customs will be regulated by the NATO SOFA, the BIA, and the Memorandum of Understanding Between Italy and the United States of America on Customs and Fiscal Procedures Relative to the Application in Italy with Regard to United States Armed Forces of Article XI of the NATO Status of Forces Agreement, signed in Rome on 20 October 1954. The Italian and U.S. Commanders will mutually cooperate in the exchange of information and resolution of issues regarding customs procedures.

4. Procedures for taxation will be regulated by the NATO SOFA and the BIA, as applicable, relevant legislation, and other specific agreements regarding the scope and application of taxation between the two governments. The Italian and U.S. Commanders will mutually cooperate in the exchange of information and resolution of issues regarding taxation and tax procedures.

----- END OF ANNEX -----

ANNEX 9 - SECURITY PROCEDURES

1. The Italian Commander shall, in coordination with the U.S. Commander, develop and implement:

a. **LOCAL FORCE PROTECTION PLAN:** The local force protection plan shall discuss the overall protection and surveillance of the installations at Caserma Carlo Ederle, and its subordinate installations in the area of Vicenza, Italy, as identified in Annexes 1 and 2; authority to use, carry, and transport weapons; procedures regarding search and seizure; procedures regarding traffic stops; a plan for prevention of attacks; a plan for intervention should an attack occur; an anti-terrorism plan; security at weapons compounds; and other matters as agreed upon by the Italian and U.S. Commanders.

b. **CONSEQUENCE MANAGEMENT PLAN:** The consequence management plan shall contain procedures for dealing with emergency events such as volcanic activity, seismic activity, chemical/biological events, or other emergencies as agreed upon by the Italian and U.S. Commanders.

c. **ALARM MANUAL:** The alarm manual shall include provisions relating to the declaration of emergencies, response to crisis events, and associated matters as agreed upon by the Italian and U.S. Commanders.

2. The parties shall endeavor to exchange threat information (related to intelligence, terrorism, sabotage, etc.) to the maximum extent possible when such information is received.

3. The U.S. Commander shall, whenever the U.S. Force Protection Condition is lower than that set by the Italian Command, assume the Force Protection Condition set by the Italian Command. Otherwise, the U.S. Commander may set the Force Protection condition believed necessary for the protection of the personnel and equipment under U.S. command. The Italian commander, upon receipt of information from the U.S. Commander, shall match the Force Protection Condition set by the U.S. Commander.

4. The U.S. Commander has the discretion to employ contract guards, per Article 14 of the BIA, to accomplish security functions.

Annex 9

5. U.S. Army Military Police and Law Enforcement officials will carry arms outside the installations/infrastructure encompassed by this Technical Arrangement in accordance with Article VI of the NATO SOFA and related Protocol of application in Italy.

----- END OF ANNEX -----

ANNEX 10 - ACCESS TO U.S. RESTRICTED AREAS

1. The Italian Commander, or the acting Italian Commander, including technical personnel, has access to limited and well-defined classified/restricted areas under the control of the U.S. Commander in accordance with the following procedures. The U.S. Commander or his representative shall ensure that all necessary measures are taken to allow the Italian Commander, or the acting Italian Commander access to classified/Restricted areas.

2. The Italian Commander, or the acting Italian Commander, will communicate to the U.S. Commander his intention to access the classified/restricted areas. Normally, such request shall be made with 24 hours' notice to the U.S. Commander. The request will include the names of those technical personnel to accompany the Italian Commander, or the acting Italian Commander.

3. **The U.S. Commander:**

a. Informs his personnel that the Italian Commander, or the acting Italian Commander, may access the area in question; and

b. Secures documents classified "U.S. only" in accordance with U.S. procedures and regulations.

4. The U.S. classified/restricted areas are:

----- **END OF ANNEX** -----

ANNEX 11 - COORDINATION AND APPROVAL PROCEDURES FOR TRAINING AND OPERATIONAL ACTIVITIES

1. The primary mission of SETAF and its subordinate units, as a Joint or Army Task Force, is to train and deploy forces to conduct forcible entry operations, joint and/or combined war fighting, or stability operations, anywhere directed
2. This annex is established to facilitate the regular implementation of SETAF training activities on Italian territory.
3. Appendix 1 to the present Annex lists the major SETAF training events conducted at Italian firing ranges, or with Italian units. Changes to the pre-programmed training activities may be submitted with at least 30 days' advance notice prior to the commencement of the training activity. The U.S. Commander will submit such requested changes to SMD through the Office of Defense Cooperation (ODC).
4. In order to conduct the training activities indicated in paragraph 3 above, SETAF will use, or may eventually utilize, the areas, facilities and equipment in Italy indicated in Appendix 2.
5. The training areas, facilities and equipment of one of the Parties, which are listed in this Annex, may be used by the other Party in compliance with the Agreements, Technical Agreements and current Regulations in effect. The principal agreements currently in force are listed in Appendix 3.
6. The Italian and U.S. commander will agree upon an annual plan for joint and combined training activities; participation at training courses and events on a reciprocal basis; combined use of training areas, facilities and equipment belonging to one of the Parties; and on the necessity of services of respective interest. They will coordinate their actions to achieve the objectives of the training activities at issue. The Italian Commander will illustrate to the U.S. Commander areas of mutual interest for the future development of projects to realize training facilities and/or infrastructure. Both commanders will fully explore such possible opportunities for mutual cooperation, even in terms of cost sharing.
7. The U.S. Commander will:
 - a. Provide the Italian Commander with the annual program of major SETAF training events, including joint training with other U.S. units that are temporarily deployed, which entail the use of the Italian firing ranges or which entail combined training with

Italian units. Major SETAF training events are subject to the bilateral approval procedure.

(1) The schedule of training activities regularly conducted by SETAF will be provided quarterly, or whenever requested by the Italian Commander.

(2) Requests for major training activities not included in the annual program of major SETAF training events will be submitted to the Italian Commander only in exceptional cases, to be evaluated by the competent national authorities.

(3) Any further coordination with the Italian military authorities, including the request for approval of U.S. operations, will be transmitted to SMD through the competent office of the U.S. Embassy in Rome;

b. Coordinate with the Italian Commander in advance the activities above and provide timely notification to the competent Italian authorities of the cancellation of training events;

c. Respect current and applicable Italian civilian and military regulations in the execution of training activities;

d. In coordination with the Italian Commander, manage the real-world response to all emergency situations, incidents and accidents regarding training activities and operations in Italy performed by SETAF or by assigned or attached U.S. units temporarily deployed in Italy.

8. The Italian Commander will provide to the U.S. Commander, to the maximum extent possible, all relevant Italian operational directives, manuals, regulations and safety laws.

9. Activities or operations designed to collect information, either on the electromagnetic spectrum (SIGINT) or other forms (aerial cartography, maps, survey, etc.) shall be regulated by specific bilateral agreements and subject to specific authorization issued by the competent authority.

10. Arms and conventional weapons stored in bunkers specifically authorized for munitions storage shall respect Italian, U.S., and NATO standards and procedures. In the event of conflict, the Italian and U.S. Commanders shall coordinate and apply the appropriate standard. On a semi-annual basis, the U.S. and Italian Commanders shall each provide their counterpart with a report listing the types, quantities, and location of explosive material each holds in stock on the installation.

Annex 11

11. U.S. joint and combined activities performed by SETAF with other countries at Caserma Ederle, its subordinate installations in the area of Vicenza Italy as identified in Annexes 1 and 2 to this Technical Arrangement, or at Italian training areas and firing ranges, is subject to the approval of the Italian competent authorities.

List of the appendixes to this annex:

Appendix 1 - Major SETAF Training Events

Appendix 2 - Training Areas, Facilities and Equipment

Appendix 3 - Principal Agreements, Technical Agreements and Regulations in Force

Appendix 1 to Annex 11

MAJOR SETAF TRAINING EVENTS

Listed below are the major SETAF training events conducted at Italian firing ranges or with Italian units, with the specifications and following details:

- a. Monthly parachute jumps with eventual use of light/heavy drops, on Juliet Drop Zone (DZ) (Maniago), with aerial departure from Aviano Air Base;
- b. Weapons firing with small arms, mortars and/or artillery and exercises up to the company level, at firing ranges and training areas in accordance with appendix 3;
- c. Military operations in urban terrain (MOUT) at the training area of S. Giorgio di Brunico, Artegna, Valle Ugione, and other possible areas available for similar activity;
- d. Land navigation and convoy escort at the training areas Tagliamento, Cellina Meduna e Piave;
- e. METEOMONT class annually organized by the Commando TA and the 7th Special Weather Squadron that provides for exchange training between the units;
- f. U.S. Army participation in Italian Air Assault qualification courses conducted by the Friuli Air Assault Brigade;
- g. Combined jump exchanges (with award of qualification wings) conducted with U.S. aircraft on Juliet DZ during the routine jump activity of SETAF, on Nella DZ (Lu) and Tania DZ (Lu) conducted with Italian aircraft following ground training at CAPAR Pisa;
- h. Area interdiction and counter-interdiction training (of the type "Mangusta") in the training areas of Folgore with the participation of SETAF units;
- i. Confidence course training with Folgore units;
- j. Multiple-ship tactical parachute jump (MASS TAC) training on Juliet DZ or Monte Romano with combined SETAF/FOLGORE units, with the use of mixed tactical groups following jumps in various types of missions: hostages rescue, airfield seizures, attacks of sensitive targets (Aquila training);
- k. Jump exchanges (with award of qualification wings) with Italian Airborne troops of the 4th ALIPAR in Bolzano;

Appendix 1 to Annex 11

1. High altitude mountain combat exercise training (summer/winter), with the 4th ALIPAR in Bolzano;n. Air assault and sling load training operations with helicopters and troops in the authorized areas P-series, T-Series and Juliet Drop Zone.

Appendix 2 to Annex 11

TRAINING AREAS, FACILITIES AND EQUIPMENT

1. Italian training areas and firing ranges of U.S. interest are listed below:

- Rivoli Bianchi di Venzone (UD);
- Artegna (UD);
- San Giorgio di Brunico (BZ);
- Dobbiaco (BZ);
- Salorno (TN);
- Cao malnisio (PN);
- Monte Ciaurlec (PN);
- T serie (PN);
- P serie (PN);
- Juliet DZ (PN);
- Maniago training area ((PN);
- Altopascio DZ (LU);
- Tassignano DZ (LU);
- Fontaniva (TV);
- Erbezzo (TN);
- Col Maurin (CN);
- Villafranca in Lunigiana (MS);
- Foci Reno (FE);
- Foci Serchio (PI);
- Monte Carpegna (PU);
- Monte Romano (VT);
- Santa Severa (RM);
- Torre Nebbia (BA);
- Torre Veneri (LE);
- Capo Teulada (CA)

2. The Italian training areas and firing ranges listed above are available for use by U.S. units. The Italian Commander will notify the U.S. Commander quarterly regarding the availability of the above training areas and firing ranges. Priority of use goes to satisfy Italian requirements.

3. To conduct regular training activities, SETAF utilizes Italian facilities and equipment listed below, in accordance with specific technical agreements (see attachment 3):

a. Cao Malnisio Fire Range:

- Pop-up targetry with U.S. technical assistance

Appendix 2 to Annex 11

b. San Giorgio di Brunico (BZ) Training Area:

- MOUT training stations realized in the area with U.S. funding.

c. Monte Carpegna (PU) Firing Range:

- Possible future project: Training stations to be realized in the firing range with U.S. funding.

d. Monte Romano (VT) Firing Range:

- Possible future project: Training stations to be realized in the firing range with U.S. funding.

e. Foci Reno (FE) Firing Range:

- Possible future project: Training stations to be realized in the firing range with U.S. funding.

4. To conduct regular training activities SETAF utilizes the facilities and equipment on Caserma Ederle listed below:

- Engagement Skill Trainer (EST);
- Military Operation on Urban Terrain (MOUT)
- HUMVEE Egress Assistance Trainer (HEAT)
- Call for Fire Trainer (artillery fire observation simulator)
- Indoor Firing Range (MIR - 25 meter, 4 lanes)

5. The above facilities and other equipment and/or systems present on SETAF installations are available for use by Italian units. The US Commander will notify the Italian Commander quarterly regarding the availability of the above training areas and firing ranges. The Italian Commander will coordinate with COMFOTER the use by Italian units. Priority of use goes to satisfy U.S. requirements.

Appendix 3 to Annex 11

**PRINCIPAL AGREEMENTS, TECHNICAL AGREEMENTS AND REGULATIONS IN
FORCE**

The principal agreements, technical agreements and regulations currently in force are listed below:

"Technical Agreement between the Command RFC Regione Friuli Venezia Giulia and USASETAF Command for the use of the training area in Dandolo, Maniago (PN) (former firing range of the Italian air force), of 30 November 2004";

"Technical Agreement between the Command Truppe Alpine and USASETAF Command for the use of the training area in San Giorgio di Brunico (BZ) of 29 June 2005";

"Regulations for Airborne training performed on Maniago Airport of 28 April 1999";

"Agreement between the Comando of Regione Militare Nord Est and USASETAF Command for the Common Use of Cao Malnisio Fire Range of 12 November 2007.

ANNEX 12 - LOCAL JOINT MILITARY COMMISSION

The charter outlining the composition and the functions of the Local Joint Military Commission (JMC-L) is contained in the attachment to this annex, and will be attached by the local commanders.

----- **END OF ANNEX** -----

USASETAF(A)

LOCAL JOINT MILITARY COMMISSION CHARTER

ARTICLE I

AUTHORITY:

- A. The USASETAF (A) Joint Military Commission (JMC-L) is established pursuant to Article XIX of this Technical Arrangement and is composed of 6 (six) Italian and United States military representatives.
- B. The USASETAF (A) JMC-L is established for the military installations of Caserma Ederle, Vicenza, Italy, and Camp Darby, Livorno, Italy. The USASETAF (A) JMC-L has jurisdiction to examine and resolve all issues pertaining to the local aspects of executing the USASETAF (A) Technical Arrangements, as well as the related defense agreements between Italy and the United States.
- C. In the event the USASETAF (A) JMC-L is unable to resolve a major issue satisfactorily, or the issue is one beyond the authority of local Commanders, the USASETAF (A) JMC-L will refer the issue to the National JMC or higher authority.

ARTICLE II

FUNCTIONS:

The USASETAF (A) JMC-L will endeavor to achieve complete fulfillment of the agreements and understandings on defense matters reached between the two governments and will strive:

- A. To periodically review existing procedures for coordination between the Italian and U.S. Commands at Caserma Ederle and Camp Darby, in order to suggest areas where routine interaction could be improved.
- B. To resolve questions or differences which may arise concerning the interpretation and implementation of the USASETAF (A) Technical Arrangement and related agreements, and to effect any changes to the Technical Arrangement in accordance with the appropriate Section of the local TA.
- C. To receive from local authorities problems, complaints, or requests for assistance, and endeavor to jointly resolve any problems locally.
- D. To propose to the appropriate authority necessary changes in local procedures and regulations.

- E. To promote mutual understanding and good will among the Italian people and the U.S. Armed Forces.
- F. To discuss problems that may arise incident to local operations, and to propose mutually satisfactory agreements and understandings.
- G. To encourage the informal exchange of views and ideas, through conferences and discussions.
- H. To formally transmit and receive information on matters of major importance to and from the national JMC.

ARTICLE III

MEETINGS COMPOSITION AND RECORDS:

- A. The USASETAF (A) JMC-L shall meet approximately every other month or as deemed necessary by the Commission Chairmen. The Commission will be co-chaired by the Italian Base Commander, Caserma Ederle; and the USASETAF(A) Chief of Staff. In the absence of either Chairman the senior officer for the national side shall serve as Chairman.
- B. The Italian side of the JMC-L will be composed of:
 - Italian Base Commander of Caserma Ederle.
 - Italian Base Commander of Camp Darby.
 - Italian Liaison Officer, 22d ASG
- C. The U.S. side of the JMC-L will be composed of:
 - USASETAF (A) Chief of Staff.
 - 22d ASG Commander.
 - U.S. Base Commander of Camp Darby

"Technical advisors" can be included without right to vote.
- D. Each side shall appoint an officer to act as recorder of the proceedings of the USASETAF(A) JMC-L meetings. Each side shall be responsible for the preparation and coordination, in both languages, of the minutes of each meeting and for the proper distribution of the minutes. The Recorders shall also maintain a records system of all USASETAF (A) JMC-L proceedings.
- E. A minimum of two members from each side shall be present to establish a quorum necessary to hold a JMC-L meeting.
- F. JMC-L minutes shall be approved by the two JMC-L co-chairmen prior to distribution. The minutes of the JMC-L shall be reviewed by any member not present at the meeting. The minutes shall be prepared for the signature of the Chairman of

1. JMC-L
 2. JMC-L
 3. JMC-L

FOR OFFICIAL USE ONLY

both the Italian and U.S. side of the USASETAF (A) JMC-L and shall be treated as privileged information FOR OFFICIAL USE ONLY.

- G. By mutual agreement, either the Italian or U.S. side may have technical advisors present at the meetings for the purpose of consultation.

ARTICLE IV

MEDIA OF PRESENTATION:

Matters to be considered by the USASETAF (A) JMC-L may be presented in either written or verbal form, the substance of which shall be either appended to or written into the minutes, as appropriate.

ARTICLE V

APPROVAL:

The agreed minutes, including all agreements appended thereto, shall be considered valid and shall be given full faith and credence by both parties.
